Introduction of HANEOLNURI

HANEOLNURI Business Areas

Company Introduction	03
History	04
Business Field	06
Certificate and Registration Certificate	08

Manufacturing	
LED luminaires (Streetlights, Security Lights, Tunnel Lights)	10
LED dimming controllers	19
Smart Sensor(HRSM)	20
Street light support columns (Stainless Steel, Iron)	22
Solar Streetlights Power Controller	30
Solar Streetlights	32
Remote Monitoring and Power Control Systems	54
Solar Power generation systems	56
Construction	
Electrical Construction	61
Information and Communication	62
Fire Protection Facility Construction	63

HANEOLNURI, a company leading a future society where humans and nature harmonize together with **Eco-friendly renewable energy technology!**

The world and Korea are focusing on the development of new and renewable energy to replace fossil energy due to environmental problems.

Our company is leading the future energy industry, dreaming of a Green New Deal, a sustainable development centered on people and the environment. We will move forward to become a leading company in the new and renewable energy industry based on continuous R&D by actively utilizing the energy provided by nature. In addition, we will practice ethical management that always considers people, customers, families, and society with a humble mind.

Since its establishment in 2001, HANEOLNURI Co., Ltd. started as an electric and specialized firefighting company, and has grown into a technology leading company in the current renewable energy(solar power) industry by receiving certifications for uninterrupted construction certification, a company specializing in underground wiring, and a company specializing in solar power generation construction.

In addition to technological know-how and excellent quality, we lead the future energy industry and pursue the best quality and best service. Through creative efforts and innovative growth, we will grow into a Green New Deal company that harmonizes with people and the environment through the eco-friendly renewable energy industry.

HANEOLNURI HISTORY

2023	<ul style="list-style-type: none"> · Re-designated as Chungbuk Star Company · KICT(Korea Institute of Construction Technology) Family Enterprise · Ministry of Trade, Industry and Energy (Designated as one of the Best Cases for Wind Power-Hybrid)_Chungbuk TP · Patent Registration <ul style="list-style-type: none"> - Hybrid Street Light(No. 10-2486497) - LED lighting control system and its method(No. 10-2008684)

HANEOLNURI

Business Field Introduction

LED Luminaires

- DC LED Street Light
- AC LED Street Light
- AC LED Tunnel Light
- Dimming LED Street Light
- Dimming LED Tunnel Light

Street Light fixture support column

- Stainless Steel
- Iron

Solar Street Light

- Basic
- Premium
- Smart
- Hybrid

LED Dimming Controller

- Motion Sensor
- Illuminance Sensor
- Dimming Control
- Power Failure Compensation
- Remote Control
- Emergency Alarm

Smart Sensor

- HRSM

Solar Street Light Power Controller

- Built-In Display Power Management
- Sunrise/Sunset Information

Remote Monitoring and Power Control system

- Remote Bidirectional control
- Street light Monitoring
- Solar Power Generation System Monitoring

Electrical Work

- Transmission and Substation Construction
- Distribution Construction (Overhead, Underground)
- Railway Electricity
- Landscape Lighting and Street Lighting Construction
- General Construction and Industrial Electrical Construction
- Electric Vehicle Charging (EV) Business

Fire Protection Facilities Construction

- Alarm Equipment
- Fire Extinguishing System
- Evacuation Equipment

Solar Power System

- Silicon Solar
- Building All-in-One Solar
- Support, Junction Box
- BIPV_CIGS

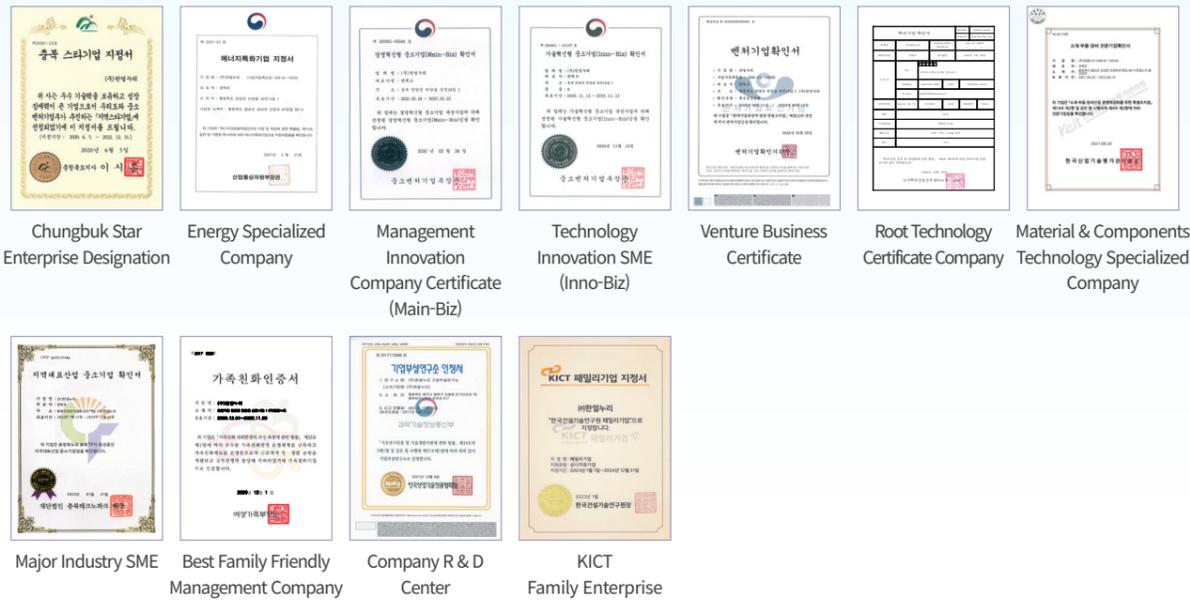

Information and Communication Corporation

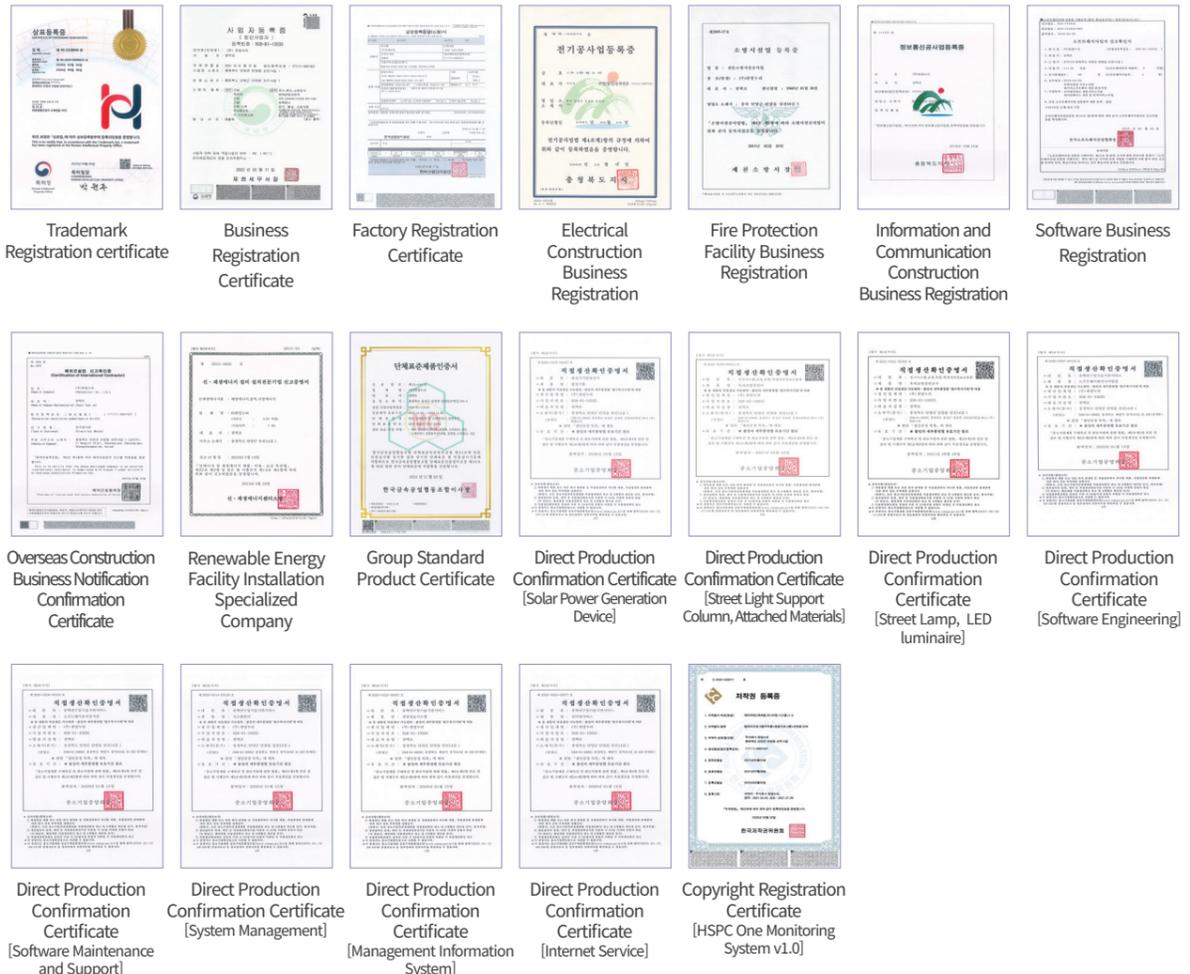

- Wired and Wireless Communication Construction
- Communication Power Supply (DC, AC, Storage Battery, Generator, Grounding Construction) Construction Business
- High-Altitude Relay Station Maintenance and Construction Project
- High-Speed Internet
- 5G repeater installation and maintenance business

Certificates and Registrations

Company Certificate

Certificate of Registration

It is a certificate and license held by HANEOLNURI that researches and develops every day for good quality products and safe construction.
We will grow and develop further and realize 100% customer satisfaction.

ISO & Product Certificate

Certificate of Patent

HANEOLNURI Co., Ltd LED Luminaires

DC LED Street Light

Direct Couple LED street light is connected to HSPC 1 and 2 Direct with our patent, eliminating unnecessary power conversion for LED lamp driving to realize energy saving.

AC LED Street Light

which is a street light operated by AC input, which has obtained the certification of high-efficiency equipment and uses high-quality high-efficiency converter to achieve service life, and energy saving.

AC LED Tunnel Light

IP-certified housing to withstand the humid environment inside the tunnel and corrosion-resistant housing.

Dimming Street Light

A light that can be changed to the desired illuminance by the user, Illumination changes to save energy during off-peak hours.

Dimming Tunnel Light

When entering and exiting the tunnel, the driver's vision due to the difference in brightness between day and night, Light brightness will change to aid the driver's vision recovery.

HTL - L NUM A

LED Dimming Controller

Function	Description
Motion sensor x 2CH	24GHz radar sensor
	External input(CCTV signal)
Illuminance sensor x 2CH	CDS sensor(for dimming brightness control by measuring ambient brightness)
Error check x 2CH	LED output voltage measurement
	LED output current measurement
Dimming control x 2CH	0-10V(zero ten) method
	PWM method
Power failure compensation	Save the controller's setting value
Remote Control	Wireless(CAT-M1)
	Wireless(ZIGBEE)
	Wired(LAN)
	Wired(RS-485)
Emergency Alarm	Emergency Switch
	Emergency Warning Light
Time	RTC(Real Time Clock)
LED Output x 2CH	LED input/output port
LCD	Mono LCD With backlight
Switch	Button(Modify/Save Settings)
Fine dust traffic light	Three levels of fine dust control in the installation area

● Smart Sensor (HRSM)

Functions	Details	
Operation detecting sensor	<ul style="list-style-type: none"> ▷ 24 GHz radar sensor (dual 2 channels) <ul style="list-style-type: none"> : The sensor recognition angle can be adjusted in 6 steps at 15 degrees horizontal interval (220 degrees detected) : The sensor recognition angle can be adjusted in 6 steps at 15 degrees horizontal (90 degrees detected) : 220 degrees horizontal and 90 degrees vertical without detection blind spots : Unaffected by surroundings (temperature, humidity, wind, dust, light) 	
	<ul style="list-style-type: none"> ▷ Traffic volume can be accumulated : Vehicle movement direction and amount of movement can be calculated by hour and day 	
Illumination sensor	<ul style="list-style-type: none"> ▷ CDS Optical Sensor : Automatically sense surrounding brightness to check sunrise and dim LED lighting 	
Fine dust indicator	<ul style="list-style-type: none"> ▷ Indicating fine dust : Turning on the LED lights on the fine dust situation in the area by color 	
	[How to Indicate]	
	1) Blue light = fine dust is good	
	2) Green light = Fine dust normal	
	3) Yellow light = bad fine dust	
4) Red light = Fine dust is very bad		

Stainles Lamppost

Model Name	HAN-SP02-41
Type	Stainless Street Light Fixture Support column
Identification Num	24481099
Key Features	4m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP02-51
Type	Stainless Street Light Fixture Support column
Identification Num	24481100
Key Features	5m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP08-82
Type	Stainless Street Light Fixture Support column
Identification Num	24485333
Key Features	8m, 1Single Lamp + Walking Light
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP08-92
Type	Stainless Street Light Fixture Support column
Identification Num	24485332
Key Features	9m, 1Single Lamp + Walking Light
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

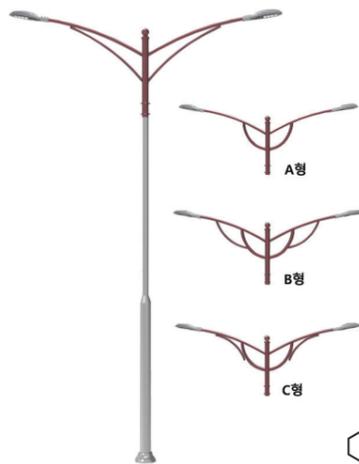

Model Name	HAN-SP08-102
Type	Stainless Street Light Fixture Support column
Identification Num	24485331
Key Features	10m, 1Single Lamp + Walking Light
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP05-82
Type	Stainless Street Light Fixture Support column
Identification Num	24485336
Key Features	8m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP05-92
Type	Stainless Street Light Fixture Support column
Identification Num	24485335
Key Features	9m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP05-102
Type	Stainless Street Light Fixture Support column
Identification Num	24485334
Key Features	10m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP07-81
Type	Stainless Street Light Fixture Support column
Identification Num	24485333
Key Features	8m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP07-91
Type	Stainless Street Light Fixture Support column
Identification Num	24485338
Key Features	9m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

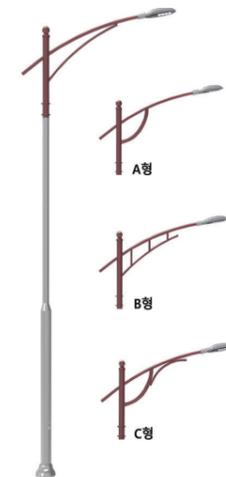

Model Name	HAN-SP07-101
Type	Stainless Street Light Fixture Support column
Identification Num	24485337
Key Features	10m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP06-81
Type	Stainless Street Light Fixture Support column
Identification Num	24485342
Key Features	8m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP06-91
Type	Stainless Street Light Fixture Support column
Identification Num	24485341
Key Features	9m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP06-101
Type	Stainless Street Light Fixture Support column
Identification Num	24485340
Key Features	10m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

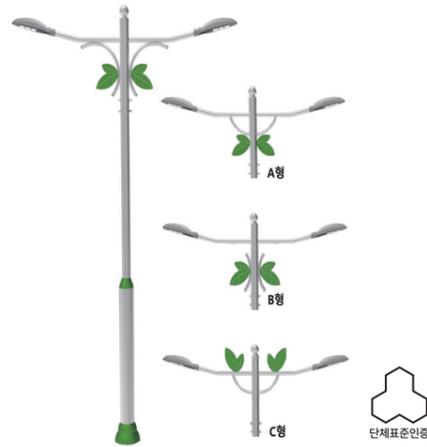

Model Name	HAN-SP05-81
Type	Stainless Street Light Fixture Support column
Identification Num	24485345
Key Features	8m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP05-91
Type	Stainless Street Light Fixture Support column
Identification Num	24485344
Key Features	9m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

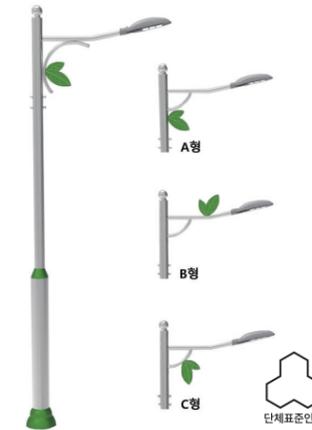

Model Name	HAN-SP05-101
Type	Stainless Street Light Fixture Support column
Identification Num	24485343
Key Features	10m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Stainles Lamppost

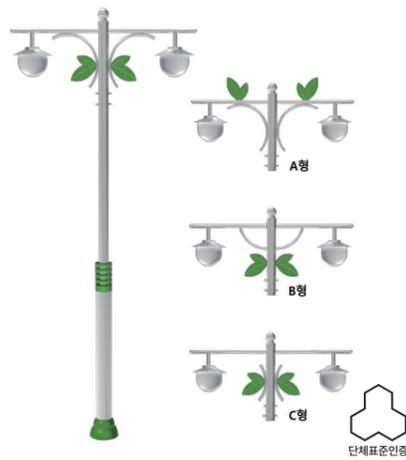

Model Name	HAN-SP04-42
Type	Stainless Street Light Fixture Support column
Identification Num	24485347
Key Features	4m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP04-52
Type	Stainless Street Light Fixture Support column
Identification Num	24485346
Key Features	5m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

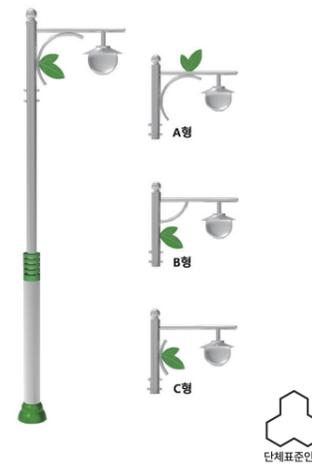

Model Name	HAN-SP04-41
Type	Stainless Street Light Fixture Support column
Identification Num	24485353
Key Features	4m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP04-51
Type	Stainless Street Light Fixture Support column
Identification Num	24485352
Key Features	5m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

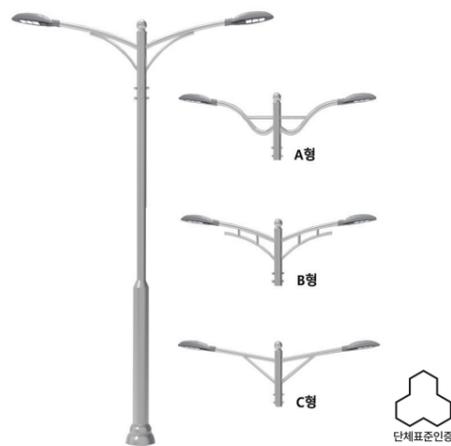

Model Name	HAN-SP03-42
Type	Stainless Street Light Fixture Support column
Identification Num	24485349
Key Features	4m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP03-52
Type	Stainless Street Light Fixture Support column
Identification Num	24485348
Key Features	5m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

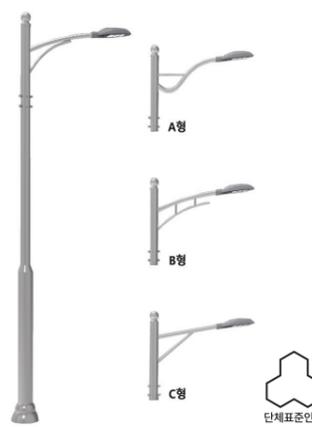

Model Name	HAN-SP03-41
Type	Stainless Street Light Fixture Support column
Identification Num	24485355
Key Features	4m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP03-51
Type	Stainless Street Light Fixture Support column
Identification Num	24485354
Key Features	5m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP01-42
Type	Stainless Street Light Fixture Support column
Identification Num	24485351
Key Features	5m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP01-52
Type	Stainless Street Light Fixture Support column
Identification Num	24485350
Key Features	5m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP01-41
Type	Stainless Street Light Fixture Support column
Identification Num	24485357
Key Features	4m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-SP01-51
Type	Stainless Street Light Fixture Support column
Identification Num	24485356
Key Features	5m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Steel Lamppost

Model Name	HAN-CP01-41
Type	Steel Street Light Fixture Support Column
Identification Num	24481101
Key Features	4m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP01-51
Type	Steel Street Light Fixture Support Column
Identification Num	24481102
Key Features	5m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP02-41
Type	Steel Street Light Fixture Support Column
Identification Num	24481103
Key Features	4m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP02-51
Type	Steel Street Light Fixture Support Column
Identification Num	24481104
Key Features	5m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP03-81
Type	Steel Street Light Fixture Support Column
Identification Num	24481105
Key Features	8m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP03-91
Type	Steel Street Light Fixture Support Column
Identification Num	24481106
Key Features	9m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP03-101
Type	Steel Street Light Fixture Support Column
Identification Num	24481107
Key Features	10m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP04-81
Type	Steel Street Light Fixture Support Column
Identification Num	24481108
Key Features	8m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP04-91
Type	Steel Street Light Fixture Support Column
Identification Num	24481109
Key Features	9m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP04-101
Type	Steel Street Light Fixture Support Column
Identification Num	24481110
Key Features	10m, 1Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP03-82
Type	Steel Street Light Fixture Support Column
Identification Num	24481111
Key Features	8m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP03-92
Type	Steel Street Light Fixture Support Column
Identification Num	24481112
Key Features	9m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP03-102
Type	Steel Street Light Fixture Support Column
Identification Num	24481113
Key Features	10m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP03-82
Type	Steel Street Light Fixture Support Column
Identification Num	24481111
Key Features	8m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP03-92
Type	Steel Street Light Fixture Support Column
Identification Num	24481113
Key Features	9m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP03-102
Type	Steel Street Light Fixture Support Column
Identification Num	24481113
Key Features	10m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Steel Lamppost

Model Name	HAN-CP05-82
Type	Steel Street Light Fixture Support Column
Identification Num	24481114
Key Features	8m, 1Single Lamp + Walking Light
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP05-92
Type	Steel Street Light Fixture Support Column
Identification Num	24481115
Key Features	9m, 1Single Lamp + Walking Light
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

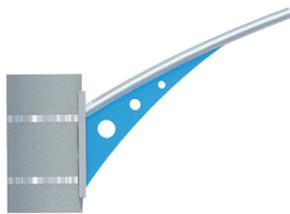

Model Name	HAN-CP05-102
Type	Steel Street Light Fixture Support Column
Identification Num	24481116
Key Features	10m, 1Single Lamp + Walking Light
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Model Name	HAN-CP01-42
Type	Steel Street Light Fixture Support Column
Identification Num	24485330
Key Features	4m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

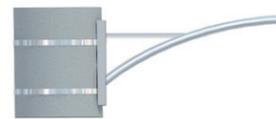

Model Name	HAN-CP01-52
Type	Steel Street Light Fixture Support Column
Identification Num	24485329
Key Features	5m, 2Single Lamp
Option	Luminaire, Ballast, Lamp, HSPC, Base Cover Sold Separately

Accessories

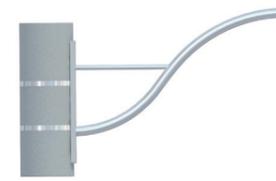

Model Name	HAN-ACA-01
Type	Streetlight Supporting Pole Accessories
Identification Num	24488495
Key Features	Walking Light Supporting arm, 1 single Lamp

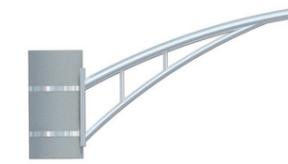

Model Name	HAN-ACA-02
Type	Streetlight Supporting Pole Accessories
Identification Num	24488496
Key Features	Walking Light Supporting arm, 1 Single Lamp

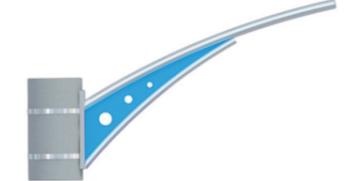

Model Name	HAN-ACA-03
Type	Streetlight Supporting Pole Accessories
Identification Num	24488494
Key Features	Walking Lght Supporting arm, 1 Single Lamp

Model Name	HAN-ACA-04
Type	Streetlight Supporting Pole Accessories
Identification Num	24488498
Key Features	Walking Light arm, 1 Single Lamp

Model Name	HAN-ACA-05
Type	Streetlight Supporting Pole Accessories
Identification Num	24488500
Key Features	Walking Light arm, 1 Single Lamp

Model Name	HAN-ACA-06
Type	Streetlight Supporting Pole Accessories
Identification Num	24488501
Key Features	Pole Attachment arm, 1 Single Lamp

Model Name	HAN-ACA-07
Type	Streetlight Supporting Pole Accessories
Identification Num	24485328
Key Features	Park Light arm, 1 Single Lamp

Model Name	HAN-ACA-08
Type	Streetlight Supporting Pole Accessories
Identification Num	24485327
Key Features	Park Light arm, 2 Single Lamp

Model Name	HAN-ACA-09
Type	Streetlight Supporting Pole Accessories
Identification Num	24485326
Key Features	Street Light arm, 1 Single Lamp

Model Name	HAN-ACA-10
Type	Streetlight Supporting Pole Accessories
Identification Num	24485325
Key Features	Street Light arm, 2 Single Lamp

Model Name	HAN-AC-01
Type	Streetlight Supporting Pole Accessories
Identification Num	24485324
Key Features	Base Cover

Model Name	HAN-AC-02
Type	Streetlight Supporting Pole Accessories
Identification Num	24485323
Key Features	Base Cover

Model Name	HAN-AC-03
Type	Streetlight Supporting Pole Accessories
Identification Num	24485322
Key Features	National Flag Holder , 2 Ball

Model Name	HAN-AC-04
Type	Streetlight Supporting Pole Accessories
Identification Num	24485321
Key Features	Banner Hanger

Solar Street Light Power Controller (HSPC)

Solar Power Controller Key Functions

- Lights on and off according to the entered sunset and sunrise information
- Lighting control and energy efficiency management using various IoT sensors
- Turn on and off at the user's desired time
- SKT LoRa, Cat.M1 bidirectional data transfer
- Wireless remote control function (forced light off, forced lighting, reset, charging stop)

Performance Evaluation of Solar Module and System Therefor

Solar Street Lamp and Operation Method Thereof

LCD Display items

- Real-time power generation, charging, discharge (current, voltage, power)
- Battery level
- Available Operating time
- Cumulative charging, discharging power

[HSPC1]

[HSPC3]

Real-time measurement

- Measurement of current, voltage, and power generated by solar panels
- Battery charging current, voltage, and power measurements with MPPT function
- Measurement of the current, voltage, and power discharged to the LED Lamp
- Cumulative power generation, charging power measurement

Wireless monitoring and remote control

- Securing reliability using SKT LoRa and "Cat.M1" communication network
- Transmits about 20 HSPC1, 2 status data every 10 minutes
- Users can remotely control solar streetlights as required (Forced turn-on, forced turn-off, Reset, time setting)

LED lamp dimming control

- Soft turn on and off functions for a natural atmosphere
- AI dimming control according to battery level
- Light power can be set from 0~120W

Rich information display and easy setup with graphic LCD

- Information display using 128*64 graphic LCD
- Easy one key input method using Jog dialogue
- Convenient UI method with separate information display window and set-up window
- Easy device reset with Factory reset function

Ambient environment detection using smart sensors

- Human body and object detection using motion sensor
- Ambient brightness detection using an ambient light sensor
- Energy saving by controlling the brightness of the lamp through ambient environment sensing

Solar Street Light

Basic Type ※ Monitoring system not installed

- Patent-proven power controller
 - Power control through real-time input/output power measurement
 - Providing various information via graphic LCD
 - Saved setting of sunrise/sunset information
 - Equipped with LED dimming function
- ※ Monitoring systems are not included

Product Identification Num 24722967

Model Name	HS-SS30L3	Charge Controller	DC12V 20A / MPPT
Solra Panel	60Wp x 2EA	Product Height	3m
LED Lamp	30W	Lampost Material	Stainless
Battery Capacity	75Ah / 14.8V(4S)	Tech Certifications	· Patent(10-2163719) · KC Certification · CE Certification
Battery Type	Lithium Ion		

Product Identification Num 24722966

Model Name	HS-SS30L4	Charge Controller	DC12V 20A / MPPT
Solra Panel	60Wp x 2EA	Product Height	4m
LED Lamp	30W	Lampost Material	Stainless
Battery Capacity	75Ah / 14.8V(4S)	Tech Certifications	· Patent(10-2163719) · KC Certification · CE Certification
Battery Type	Lithium Ion		

Product Identification Num 24722965

Model Name	HS-SS30L5	Charge Controller	DC12V 20A / MPPT
Solra Panel	60Wp x 2EA	Product Height	5m

Solar Street Light Premium Type

※ Monitoring system installed

- Basic features included
- Two-way monitoring remote control
- Remote adjustment of on/off time
- Provides various information by supporting LoRa or Cat.M1
- Controls lights by ambient conditions
- Controls lighting and manages energy efficiency with motion detection sensors
- ※ Monitoring systems are included

HANEOLNURI Solar Street Light Key Point

Through patent-proven power control technology, HANEOLNURI solar streetlight challenges the limits of solar streetlight

Patent-proven power controller

HANEOLNURI's patented power control technology prevents overcharging or complete discharging of batteries, extending the lifespan of batteries and streetlights and preventing lighting failure

Monitoring and remote control two-way through communication

Two-way communication using LoRa or "Cat.M1" with high data rate and transmission, transmits the status of solar streetlights in real time, monitoring and remote control possible through PC or mobile according to user needs

Lighting control via IoT sensor

Efficient energy saving and optimized for use environment by controlling lighting brightness and power through motion detection sensor

LED lamps that do not require power conversion

Direct Couple LED streetlight is connected to HSPC 1, 2 Direct to which our patent has been applied, eliminating unnecessary power conversion for LED light driving, thus realizing energy saving

IoT technology-based smart streetlight

Using various IoT sensors to detect the surroundings of streetlights and provide useful information through display

Hybrid streetlights using indirect wind power

Improve power generation efficiency by using wind power such as vehicles around streetlights by installing wind power generators on street lamps

HANEOLNURI Co., Ltd Solar Street Light Installation Case

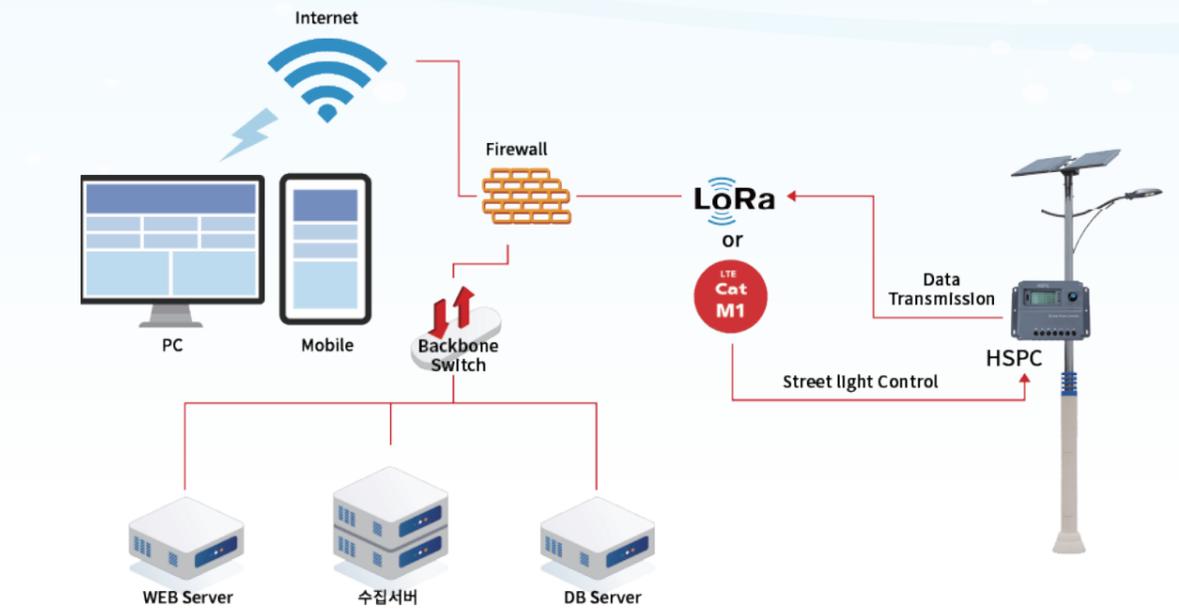

Remote monitoring and Power control system

This system is a system that monitors solar streetlights in real time and transmits all the status of solar streetlights. Using LoRa or "Cat.M1" network, high reliability is secured with less data loss due to wireless, and operation is possible at a very low cost. In general, rather than a one-way system that transmits the status data of solar streetlights, a two-way system that allows users to remotely control solar streetlights is applied.

About 20 data such as the amount of power generation, charge amount, and discharge amount of the solar streetlight are transmitted, and the user can perform remote control such as forced on, forced off, reset, and charging stop as needed.

Facility diagnosis is possible through the data transmitted from the solar streetlight, and through this, it is possible to prevent and check in advance. Monitoring can be accessed not only from a PC but also from a mobile device, and an user can view the status of solar streetlights anytime, anywhere.

Two-way system

Real-time Data Wireless Data Collection Device

Real-time data transfer to LoRa modem connected to HSPC1

Smart Infrastructure Monitoring System

Optimized for various devices such as PCs and smartphones (IOS, Android)

Security + Safety Data collection and management

All-in-one infrastructure monitoring from data collection to DB management+ security

Remote control

Remote street light status control

Cat.M1, LoRa

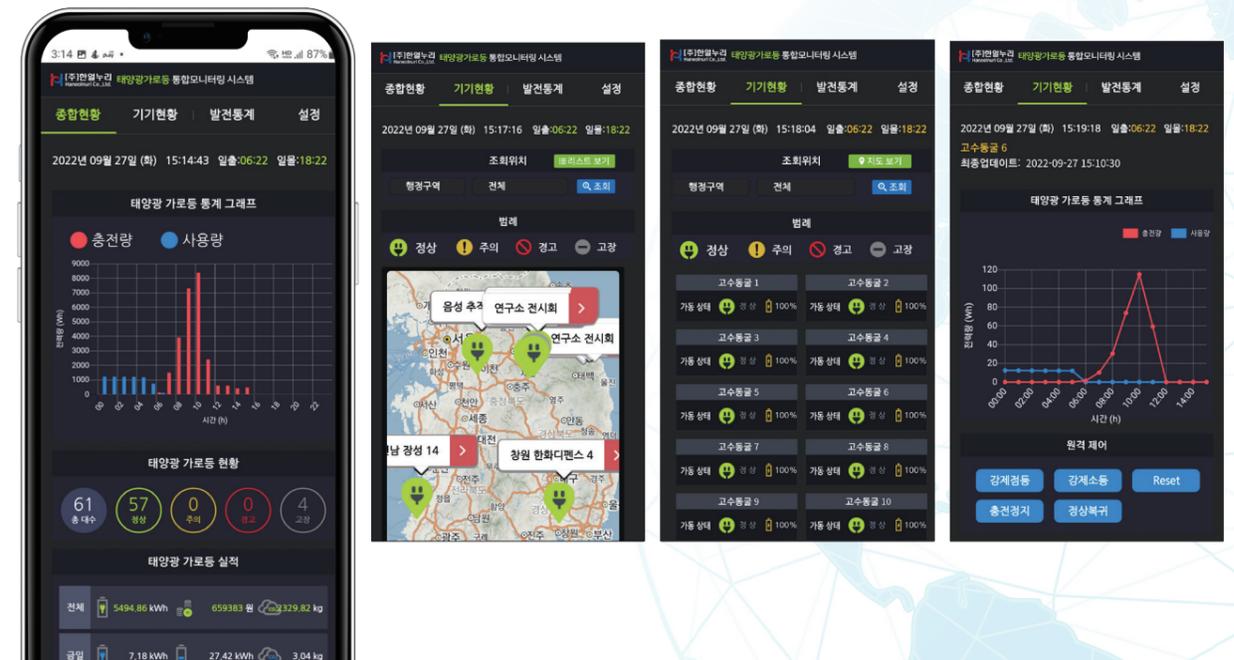

Optimization of user selection and street light installation environment and usage method by using various communication methods

PC Screen

Mobile Screen

HANEOLNURI Co., Ltd Solar Power Generation System

The investment cost is the minimum, but the power generation output is the maximum

HANEOLNURI rationally lowers investment cost and increases power generation output with more than 10 years of technology and know-how.

Thinking about the future.

HANEOLNURI research for a better future, sustainable development, and coexistence of people and nature

Thorough monitoring & thorough maintenance

Minimize damage by detecting product abnormalities in advance through the power generation monitor and boast the industry's largest maintenance period

Pursuing customer satisfaction with quality products

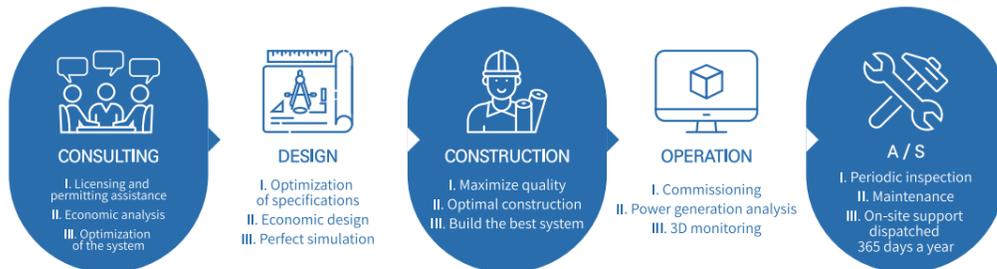

We pursue customer satisfaction and happiness with quality products.

Increasing profitability through market analysis

To improve customer profits & benefits, we take a strategic approach by analyzing factors affecting unit price, such as power start-up historical data, power market trends, and global market trends.

The order of solar power generation plant construction

Structure of Solar Power Business Profit

SMP = (System Marginal Price) : The price purchased from KEPCO at the system marginal price
(Contract target: Korea Electric Power Corporation)

REC = (Renewable Energy Certificates) : The price of the supply certificate issued by the Korea Energy Management Corporation
(Contract target: Power generation company obligated to supply)

$$\text{Annual sales} = \text{Annual power generation} \times \text{SMP} + \text{REC} \times \text{weighted index number}$$

Currently, the average amount of sunshine duration per day in Korea is 3.6 hours.
Therefore, **annual power generation(kWh)=Solar PV generation(kW) x 3.6(hours) x 365 days**

Building Solar PV Generation Support Project

BIPV_CIGS Flexible Module (Building Integrated Photovoltaic System)

BIPV zinc solar panel in which CIGS Flexible Module and zinc steel panel are integrated, no additional structure is required! Application of various buildings with ultra-light solar panels!

BIPV Features

- ⇒ Since the building is utilized, there is no need to create a separate installation site with reducing costs
- ⇒ Excellent sun blocking effect, which can replace tempered glass in high-rise buildings
- ⇒ The building and sunlight are integrated to realize a clean design
- ⇒ Strong durability reduces the risk of damage from hail or worker's footprints
- ⇒ Electricity can be supplied through building-integrated self-generation, so the producer and consumer of electricity are the same, minimizing energy loss

CIGS Flexible BIPV Panel Steel Plate

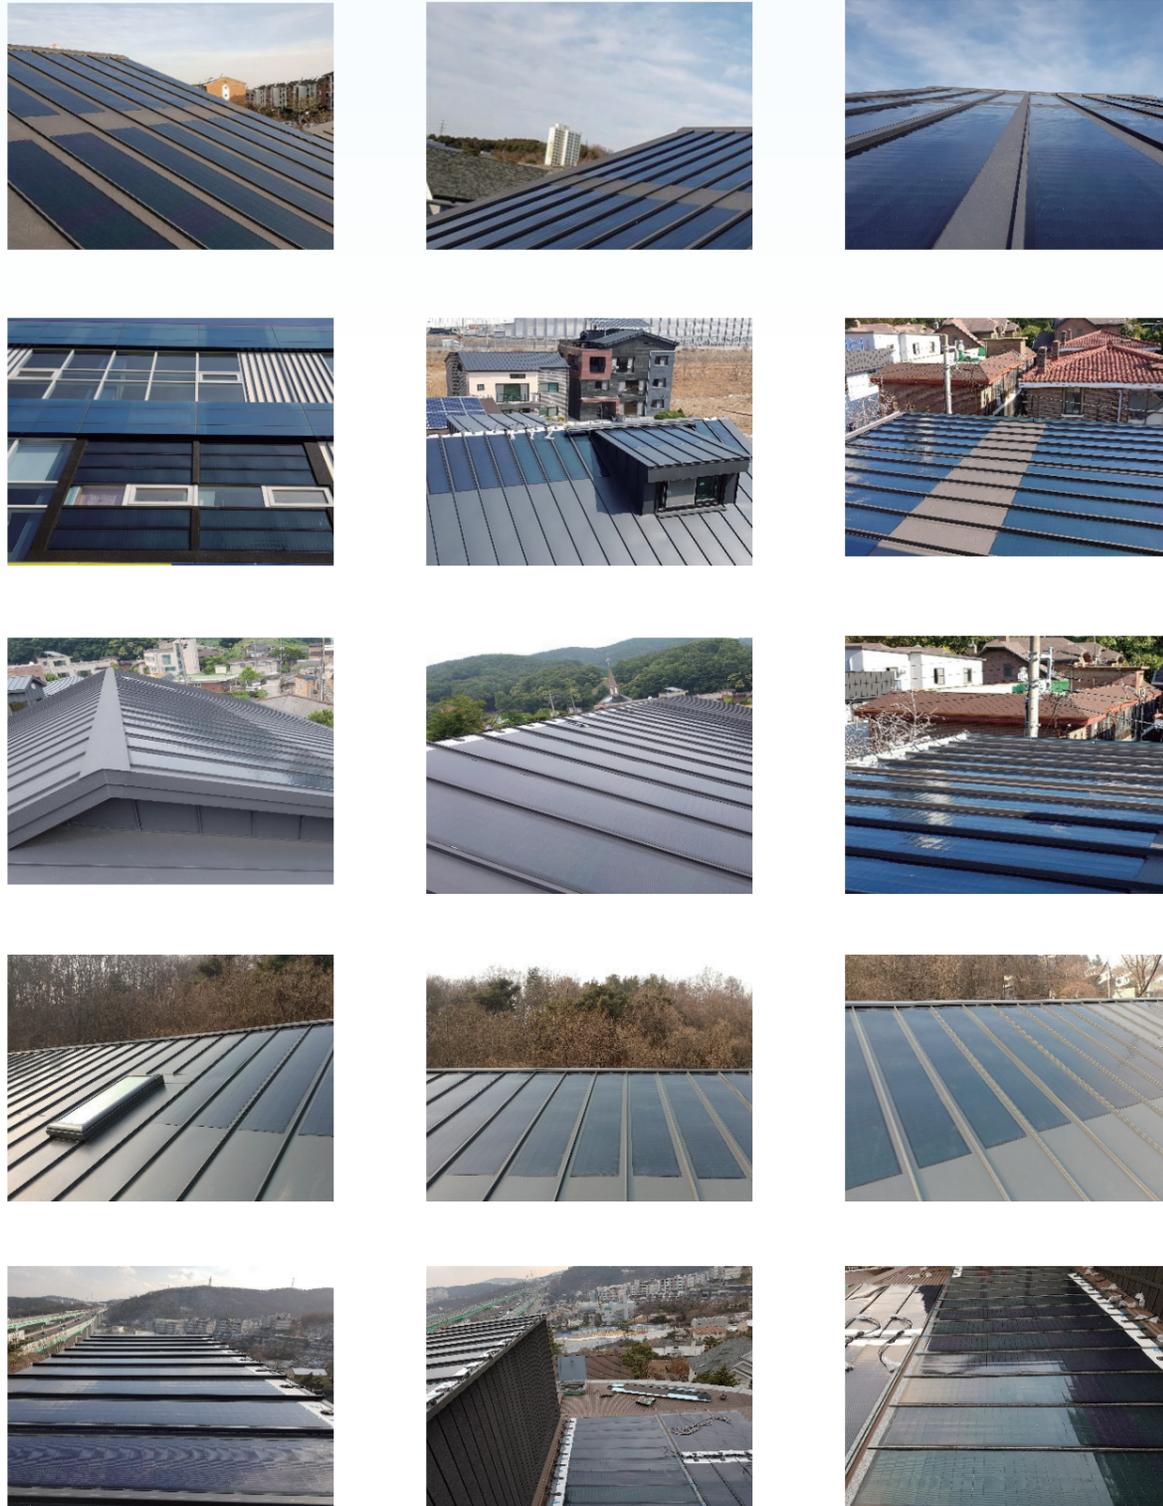

BIPV zinc solar panel with CIGS Flexible Module and zinc steel panel integrated! Construction at once without the need for additional structures! Applied to various structures with ultra-light solar panels!

- Construction material type (zinc panel type): a zinc panel with a curved or flat surface to replace exterior materials
 - Unit size of product material: 3 types of flat and curved surfaces over 0.7m² Prototype(80W, 125W, 290W)
 - Power generation efficiency of exterior module: 16% or more
 - Lightweight of exterior material module: Less than 30% of the weight of Crystalline battery based BIPV exterior material of the same area
 - Waterproofing, soundproofing, and thermal insulation performance: Meets the performance requirements of building materials when applied as an exterior wall building material
 - Fire-resistance performance: "Class A" secured in IEC fire test

Features of BIPV_CIGS Solar Module

 Light weight	Lighter weight than glass modules, making it easy and quick to transport and install. CIGS is particularly suitable for retrofitting existing buildings or applications where additional weight and/or strong winds and loads are important depending on the nature of the building or structure due to its light weight.
 Flexibility	As CIGS can conform to curved surfaces, designers can freely design, so the demand for good looking building-integrated PV (BIPV) is increasing.
 Heat resistance (performance at high temperatures)	Thin-film flexible PV products provide better energy production in high module temperatures and warm climates. In real outdoor conditions, the module temperature can be particularly high up to 80 degrees Celsius. At this temperature, thin-film PV products can generate up to 20% more electricity than conventional crystalline solar modules of the same power rating.
 Wind resistance	It is also safe from strong winds as it is installed on the roof and wall as an integral part of the building.
 Reduced cost with glassless structure	When installing a solar power system on the ground, there is no need for additional structures if there is no glass attachment, which greatly reduces the total cost of the solar system.
 Durability	Due to its strong durability, there is little risk of damage caused by hail or worker footprints. Encapsulated in a UV-stabilized weathering polymer, durable CIGS products have been proven for decades in the most extreme conditions imaginable, including satellites, marine buoys and military applications.
 Efficiency	High light absorption, high energy conversion efficiency of 18-20% or more of high-efficiency single-crystal cells.
 Aesthetics, diversity	As an exterior finishing material, it is an integral part of the building and enhances the good appearance of the building.
 Efficiency against Shadow influence	Because CIGS has high light absorption in the blue wavelength range, it provides high outdoor performance under low light diffusion conditions. Thin-film solar panels can provide power even when partially shaded (clouds, etc.) or dirty.
